Installation Instruction

For Example 3

1. Install the lockcase by inserting it into the cutout of the door.
2. Secure the outside cylinder and inside turn-piece to the lockcase by inserting the long retainer pins from the plate side.
3. Insert the square spindle into the hub.
4. Place the fixing brackets onto the door and fix them by tightening up two sets of (male and female screws) as shown in the diagram.
5. Reinforce and secure the fixing brackets by additional screws.
6. Secure the outside and inside lever to the fixing brackets. Tighten the levers to the square spindle with the little thread screw.
7. Finally, install the armored front.

Installation Instruction
